

Rexcont
 Sirviendo con Prontitud,
 Lealtad y Compromiso

2026 CAPABILITY STATEMENT

COMPANY OVERVIEW

REXCONT LLC is a Puerto Rico-based fire protection contractor specializing in the engineering support, installation, inspection, testing, certification, and maintenance of fire protection systems for commercial, industrial, institutional, and government facilities. With 15 years in business, a 16-person team, and access to trusted subcontractor support, REXCONT LLC is equipped to support projects of varying size and complexity across Puerto Rico and nationwide.

The company's core work includes wet and dry fire sprinkler systems, standpipe systems, fire pumps and pump rooms, underground fire mains, hydrants, FM-200 systems, and special hazard suppression systems. REXCONT LLC delivers code-compliant fire protection solutions built around NFPA standards, safety, quality workmanship, and dependable project execution.

MISSION

To deliver reliable, code-compliant, and high-quality fire protection solutions that safeguard lives, property, and operational continuity.

VISION

To become a leading fire protection contractor in Puerto Rico and the federal marketplace, recognized for technical excellence, integrity, and on-time project delivery.

CORE COMPETENCIES

- Fire Sprinkler System Installation
- Wet, Dry, Pre-Action & Deluge Systems
- Standpipe System Installation
- Fire Pump Installation, Testing & Commissioning
- Underground Fire Main & Hydrant Installation
- FM-200 & Special Hazard Suppression Systems
- Fire Protection Inspections, Testing & Certification
- NFPA Code Compliance Support
- Hydraulic Calculation & System Design Support
- Welding, Grooved Piping & Fire Protection Piping Installation

KEY DIFFERENTIATORS

Specialized Fire Protection Focus

REXCONT LLC focuses specifically on fire protection systems, allowing the company to bring specialized technical knowledge to every project.

NFPA Compliance Expertise

Experience with NFPA 13, 14, 20, 25, and 72 helps reduce inspection failures, project delays, rework, and costly corrections.

Experienced Hands-On Leadership

Projects are supervised by experienced leadership to maintain quality control, accountability, and consistent communication.

Fast Mobilization & Efficient Execution

A lean operating structure allows quick decision-making, responsive coordination, and efficient project delivery.

Safety-Driven Operations

OSHA-compliant safety practices help reduce risk, protect job sites, and support safe work environments for clients and contractors.

Reliable Scheduling & Inspection Readiness

Strong planning and coordination help keep installations on schedule and ready for inspection, reducing closeout delays and supporting smooth turnover to the client.

PAST PERFORMANCE

DH Construction
